

Read Me Ceres5.00.74 Add Validation on Standing Appt. Setup Line for Every X Weeks Setup (Ceres5.00.74)

Service Request or Support Case:

Issue addressed: The CheckDateCombinations function in Table 14012346 (Standing Appt. Setup Line) is missing the validation for the "Every X Weeks" setup.

Objects Affected:

Type	ID	Name
Table	14012346	Standing Appt. Setup Line

This release does not present a change in system usage methodology.

Resolution:

- Table 14012346 (Standing Appt. Setup Line) is updated, by adding functionality to function 'CheckDateCombinations' for additional validation on date combinations.
