Read Me_CERES4.50.27_Default Ship-to Code on Web Orders (Ceres4.50.27)

Service Request or Support:

Issue addressed: The absence of a Ship-to Code on a Web Order can cause a failure during the Web Order validation. Ceres attempts to delete the Web Order lines in order to recreate them with the Agencies Default Ship-to Code. However, as Web Order lines cannot be deleted, an error is presented.

Type	ID	Name
CodeUnit	14012261	Inbox Processing

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by adding code to default the 'Ship-to Code' field from the Agency during Agency Web Order creation.
