Read Me_CERES4.50.38_Item Copy Data from does not check for ILE entries (Ceres4.50.38)

Service Request or Support:

Issue addressed: When utilizing the "Copy Data from" option on the Item Card, Ceres does not verify if Item Ledger Entries exist prior to copying the data. Copying data from another Item can update fields like Gross Weight that cannot be fixed when Item Ledger Entries exist; which can render the Item unusable.

Type	ID	Name
Codeunit	14012251	Transfer Data

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by adding a check to the "Copy Data from" utility to check that no Item Ledger Entries exist prior to copying the data.
