Read Me_CERES4.50.74_ Default Pallet Qty. on AO Opt. does not Update Line Amount (Ceres4.50.74)

Service Request or Support:

Issue addressed: The "Default Pallet Qty. on AO Opt." functionality does not call the functionality to update the unit price. Thus "Line Amount" does not get set when a pallet is manually specified on an AO line

Type	ID	Name
Table	37	Sales Line
Codeunit	14012258	Lot Management

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by providing functionality to update the unit price when the related Location is configured as other than the blank option for "Default Pallet Qty. on AO Opt." and a pallet is manually specified on an Agency Order line.
