Read Me_CERES4.50.80_DO Post and Print confirmation messages different from DO Post (Ceres4.50.80)

Service Request or Support:

Issue addressed: Using Post & Print versus just Post on a Donation Order behaves differently. When using Post & Print, Ceres first asks "Receive", "Invoice" or "Receive & Invoice" followed by the Prompt "Do you want to post the Donation Order?". When using Post, Ceres only asks "Do you want to post the Donation Order?". Post and Post & Print on the Donation Order should function similarly. A similar issue was noticed when using Post or Post & Print from the Donation Return Order. On a Donation Return Order, Ceres asks "Ship", "Invoice", or "Ship & Invoice" when it should ask "Do you want to post the Donation Return Order?"

Type	ID	Name
Codeunit	91	Purch.-Post (Yes/No)
Codeunit	92	Purch.-Post + Print

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by modifying the posting processes to prompt the user with the correct posting confirmation message.
