

Read Me CERES4.50.82 Incorrect FBC Agency Category Code Field on Agency Days & Hours Table (Ceres4.50.82)

Service Request or Support: Agency Days & Hours table does not properly show the FBC Agency Category Code. It is blank on all records. It should likely be setup as a FlowField like the other Agency descriptive fields.

Type	ID	Name
Table	14012364	Agency Days and Hours
CodeUnit	14012369	Purge FBC Agency Category Code

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by modifying table 14012364 (Agency Days and Hours) and changing the 'FBC Agency Category Code' field to a FlowField, linked to the same field on the Agency Table.

**Note:** Since the 'FBC Agency Category Code' field class has changed from 'Normal' to 'FlowField' it is required to run CU-14012369 before the implementation of Table 14012364 in order to initialize the field. Running CU-14012369 will eliminate any user entered data in the FBC Agency Category field on the Agency Days & Hours table. CU-14012369 is included in the CERES4.50.82a fob which can be imported and run directly from the Object Designer for each company included in the database.
