(Ceres4.50.87)

Service Request or Support: After a delivery fee is calculated, the user is unable to modify it. When an Agency Order is re-opened the Delivery Fee (Unit Fees field) can be modified but after the field is changed, the value is set back to the original value.

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by modifying Table 37 (Sales Line) and adding code to enable re-entering a value to the 'Unit Fees' field for a Delivery Fee Line.
