

Read Me CERES4.50.99 Cost Allocations Dimension Issues (Ceres4.50.99)

Service Request or Support: When using Preview Posting on a General Journal with an Allocation Code, if the Dimension Set Entry has not been used before, the Dimension Set Entry does not appear to be being built to be displayed on the Dimensions page. Additionally, CERES4.50.71 did not fully address the Cost Allocations Dimensions Posting Error.

Type	ID	Name
CodeUnit	13	Gen. Jnl.-Post Batch
CodeUnit	231	Gen. Jnl.-Post

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issues; correcting CERES4.50.71 by updating the PostCostAllocations function in the "Gen. Jnl.-Post Batch" Codeunit to correctly handle the Cost Allocation dimensions and correcting the "Gen. Jnl.-Post Batch" and "Gen. Jnl.-Post" Codeunits where the "Preview Posting" functionality provides Cost Allocation Line dimension preview.
