Read Me_CERES4.51.55_Ceres Questionnaire set to AE Survey Status = Active with blank AE Survey Freq. (Ceres4.51.55)

Service Request or Support: N/A

Issue addressed: When using AE Questionnaires, a Ceres Questionnaire can be set to AE Survey Status = Active with a blank AE Survey Frequency. A blank AE Survey Frequency causes the CheckSurvey Compliance routine to go into an infinite loop. The AE Survey Frequency needs to be specified prior to setting the AE Survey Status to Active.

Type	ID	Name
Table	14012365	Ceres Questionnaire Setup
Page	14012480	Ceres Questionnaire Setup

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by updating the Ceres Questionnaire Setup table and pages to add functionality to ensure that an 'AE Survey Frequency' is specified prior to setting the 'AE Survey Status' to 'Active'.
