

Read Me 4.51.80 Agency Invoice Email Copy Reset (Ceres4.51.80)

Issue addressed: The change completed under Ceres 4.51.41 causes a Write transaction error when using Agency Order Batch Post.

Ceres 4.51.41: When an Agency is set for automatic email of Invoices and Ceres is configured to print a copy (or copies) of the Invoice, the document attached to the email includes the copy (or copies).

Objects Affected:

Type	ID	Name
CodeUnit	14012254	Food Bank Utilities

This release does not present a change in system usage methodology.

Resolution: With this release, Ceres has been enhanced to address the reported issue by updating the coding completed under Ceres 4.51.41 to prevent the write transaction error.
