

## Read Me Ceres5.00.18 Agency Order Batch Posting Error

### (Ceres5.00.18)

Service Request or Support Case:

Issue addressed: When running the "Post Batch" process from the Agency Order List page, an error ("The Agency Document Header does not exist. Identification fields and values: Document Type = 'Order', No.= 'XXXXX') is encountered once the first Agency Order posts and the remaining eligible Agency Orders are not posted. Attempting to run the process again generates error: "The Batch Processing Parameter Map already exists. Identification fields and values: Record ID="Sales Header: Order, XXXX".

Objects Affected:

Type	ID	Name
Table	53	Batch Processing Parameter Map
Table	54	Batch Processing Session Map
Table	472	Job Queue Entry
Codeunit	88	Sales Post via Job Queue
CodeUnit	98	Purchase Post via Job Queue
CodeUnit	448	Job Queue Dispatcher
CodeUnit	1371	Sales Batch Post Mgt.
CodeUnit	1372	Purchase Batch Post Mgt.
CodeUnit	1380	Batch Processing Mgt.
CodeUnit	14012254	Food Bank Utilities

This release does not present a change in system usage methodology.

Resolution: With this release Ceres has been enhanced to address the reported issue by applying the Batch Posting fix from Cumulative Updates 06, 09 & 17.

**Note:** Table 54 - Batch Processing Session Map is a new table, the Ceres license will need to re-generated to include this file when applying this Hot Fix.
