Read Me_CERES5.00.51_Grant Dimension Update and new Calc Method
(Ceres5.00.51)

Service Request or Support: N/A

Issue addressed: The following Grant related issues were addressed:

1. The incorrect Grant Default Dimensions are being defaulted on the General Journal and/or Grant Journal when a Grant is selected.
2. The incorrect Grant Fund and/or Dimensions are being applied to Grant entries created when an Agency Order with a Grant is posted.
3. When using a Grant with a Bracket percent the calculation is not being rounded to cents.
4. The Grant Calc. Method Steps do not contain a Method Step to round to the nearest cent.

Type	ID	Name
Codeunit	80	Sales-Post
Codeunit	403	DimensionManagement
Codeunit	14012253	Grant Management

This release does present a change in system usage methodology. The following procedure document was updated accordingly:

1. Agency Orders with Grants

Resolution: Ceres was enhanced to address the reported issues by:

1. DimensionManagment (Codeunit 403) was updated to default the correct grant dimensions on the General and/or Grant Journal.
2. Sales-Post (Codeunit 80) was updated to provide the correct Grant Fund and/or Dimensions when an Agency Order with a Grant is posted.
3. Grant Management (Codeunit 14012253) was updated to round the Bracket calculations to the nearest cent.
4. Grant Management (Codeunit 14012253) was updated to add a Grant Calc. Method Step to round to the nearest cent.

NOTE: Subsequent to importing CERES5.00.51, the following record needs to be created in Table 14012273 (Grant Method Step).

Code:	NEAREST CENT
Description:	Amount is Amount Rounded to Nearest Cent
Function No.:	22
Brackets Type:	{blank}
Base Line No.:	0
