    Export Tool
Workflow Management with
    Approvals
Microsoft Office Integration

Serenic MinistryView, powered by Microsoft Dynamics NAV, offers a unique solution to the financial management needs of international missions and outreach programs. By significantly reducing the amount of time spent recording, tracking and reporting on financial activities, MinistryView leaves you more time to focus on delivering true value through your missions or outreach programs.

## With MinistryView, You Can:

- Increase visibility into individual budgets and fund reserves for better planning and decision making.
- Maximize operational efficiency by streamlining the entry of donations, expenses, reserve transfers, and organizational charges.
- Eliminate information silos and the need for multiple spreadsheets by providing an intuitive centralized solution.

Benefit From Full Integration with General Ledger, Fundraising and Payroll Tools

MinistryView is fully integrated with Serenic Navigator, the company's flagship financial management solution. This integration gives you full connectivity back to your general ledger and click-thru access to Navigator's full suite of core financial tools.

MinistryView also fully integrates with Serenic DonorVision, the company's powerful fundraising application, as well as Serenic's full-featured payroll system. This integrated approach to business software removes the need to combine multiple third-party applications.

Efficiencies are further enhanced by the fact that MinistryView provides one point of access to ministry budgets, actual income, transfers, charges, expenses, advances, and reserves. No more duplicate data entry or juggling of multiple spreadsheets.

MV10104 Almann, Richard & Donna - Ministry Statistics

	Current Month	Current Quarter	Year to Date	Prior Year to Date
Beginning	12,358.42	12,358.42	0.00	0.00
Contribution	8,250.00	8,250.00	45,000.00	0.00

Easily view, in real time, all aspects of the Support Quota Work Sheet/Budget, including reserve balances, for the month, quarter, year-to-date and prior year with Serenic MinistryView.

SERENIC™ MINISTRYVIEW™

SERENIC MINISTRYVIEW

Ease the Stress of Budgeting and Spending Decisions

Simplify the budgeting process by defining multiple budget templates with default budget detail lines specific to each ministry or program. This not only speeds budget development, but allows ministries in the field to access their particular budgets and reserve balances at any time, dependent on access to their parent organization's system.

Real time access to current budget and reserve balances lets you make spending decisions with confidence. MinistryView makes it easy to compare budget, actuals and available reserve funds.

Expenses flow through the payables application to automate the disbursement of reimbursable expenses. MinistryView's expense reimbursement form provides easy, real-time access to current budget and reserve balances. Expenses must be tied directly to specific budget lines in order to link to the general ledger. The system automatically compares amounts entered against authorized and available budget amounts.

Take advantage of the system's multi-currency capabilities to allow expenses to be entered in local currencies. MinistryView automatically does the conversion for you.

Quickly Distribute Donations Across the Organization

MinistryView includes built-in functionality that enables smooth, efficient movement of funding across the organization. The system makes it easy to quickly distribute donations to multiple business units.

With MinistryView, you get more visibility into your financials, more confidence in your decisions, more value for your mission, and all with a lot less time and effort.

About Serenic

Serenic Software is a Microsoft Industry Solutions Vendor with a mission to deliver highly functional software solutions for nonprofits, international NGOs and the public sector. We believe passionately in developing quality software which will solve the unique requirements of our clients while lowering the total cost of ownership proposition.
